Faculty of Electrical Engineering
Wroclaw University of Science and Technology (WUST)

Qualification:	PhD
Work Experience:	2014- ... Assistant Professor at the Faculty of Electrical Power Engineering, WUST 2012 - 2014 Assistant at the Faculty of Electrical Power Engineering, WUST 2008 -2012 Doctoral studies at the Faculty of Electrical Engineering of the WUST 2003 - 2008 Master of Science - WUST, Faculty of Electrical Engineering, direction: Electrical engineering, specialization: industrial and municipal power engineering.
Area of Research Interest:	<ul style="list-style-type: none">- Overvoltages and overcurrents during switching processes in capacitive circuits- Mechanisms for generating overvoltages and overcurrents in vacuum switch- Electric arc in a vacuum- Electrical equipment and installations- Transcranial constant DC stimulation tDCS- The impact of current and electromagnetic field on the human body
